HELPING YOU MOVE THE EARTH

**CAPABILITY STATEMENT**

# **CAPABILITY STATEMENT**

**Earthmoving Unlimited opened its doors to Western Australia in January 2017. Today we supply Australia-wide genuine and aftermarket replacement parts for all construction, quarry and mining, earthmoving machinery and public works.**

**We have grown significantly in the past few years and pride ourselves on providing excellent service, competitive pricing, reliability and dedication to our clients providing them with the highest quality products, wear material and spare parts.**

**We have been in the industry for over 10 years and believe we have the necessary experience and expertise to be your preferred supplier in the earthmoving industry.**

**We have quality manufacturing centres that allows us to deliver products to meet and exceed customer expectations. We never compromise on the quality of material used so you can rest assured that you will always receive a quality product that will outperform your expectations.**

**Take the stress out of your stock management processes and let our team monitor your minimum and maximum stock levels.**

**Earthmoving Unlimited is here to give you all the assistance and support to ensure your operation runs as smoothly and as well as our product.**

# CORE COMPETENCIES

Product Development is one of our specialities, we can customise any ground engaging tool and castings, tailored to your specific needs. No job is too big or small and together we can fabricate parts that suit the needs of your machines.

Why do we stand out from the rest? Our dedication and service to you is second to none, your business is our priority and we will always go the extra mile to service your requirements and stay ahead of the game. We all know that idle machines are costly so we understand the need for prompt, reliable service and delivery. All of our products are manufactured using the highest quality of material and we will never compromise on that.

Here's what some of our clients have to say about us:

*"Garth is a persistent sales rep with good reason, he backs the product to speak for itself, my first experience was putting 25mm grader blades into a very harsh mine road maintenance environment, 25mm OEM blades were lasting less than 12 hrs, I got a phone call from site advising the blades I supplied were lasting almost twice as long as the OEM, their first order was another 60 blades, the product speaks for itself."*

*"Earthmoving Unlimited, thank you for the great service and supply of parts for our earthmoving company, your knowledge and availability of sourcing parts, at a realistic price, are allowing our company to push forward with reliability and productivity. The after sales service and quick response times are of great value to us."*

*"It's been a pleasure working with a supplier who gets our business, top quality products at good prices, backed by first class customer service."*

*"I've been in the industry for 20 years and this is the best service I've ever received."*

# DIFFERENTIATORS

We service a broad range of clients from farmers in Albany to large mining corporations in the Pilbara, no matter your business and no matter your size of operation we are here to assist.

Exceptional service and high level of expertise.

Competitively priced, it is our mission to provide the best and most competitive pricing we can offer as we know how important it is in a business to put money back in your pocket.
